DETAILED ACTION

The last office action has been vacated. A new office action on the merits appears below.

Claim Rejections - 35 USC § 112

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regards to claim 1, the term "conventional" has no clear meaning.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Lemmen (5,536,070). Lemmen discloses the use of a rigid cycle seat clamping assembly for attaching a seat to a cycle comprising three links, a first link of the three links having a cycle seat post (22) for attachment to the cycle at one end, a second of the three links having a cycle seat clamping structure (60), each of the three links being attached to each other in a triangular truss configuration, see figure 1. In regards to claims 2-3, further comprising an angular and horizontal adjustment means (58,76) for adjusting the horizontal and angular position of the seat.

Allowable Subject Matter

Claim 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 5-20 allowed.

Response to Arguments

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.
